CAREER OBJECTIVE

Motivated Information Science undergraduate with strong proficiency in **Core Java, OOP, DBMS/SQL, and Data Structures**, seeking to contribute as a **Junior Software Engineer** by developing high-quality, scalable applications while actively participating in all phases of the SDLC. Passionate about clean coding, debugging, automation, and continuous self-learning in fast-paced environments.

EDUCATION

SJB Institute of Technology

Dec 2022 – Jun 2026

BE – Information Science and Engineering * — CGPA: 8.66/10 — Bengaluru

Swami Vivekananda PU College

Jun 2022

12th Standard (PCMB) — Percentage: 94% — Pavagada

TECHNICAL SKILLS

Languages: Core Java, Python (basic), C, JavaScript

Core Concepts: Data Structures and Algorithms (DSA), OOP, Object-Oriented Design Principles

Databases: DBMS, SQL (MySQL), Normalization

Backend: J2EE, RESTful APIs

Version Control: Git, GitHub

Tools: Postman, Eclipse, VS Code

Software Practices: SDLC, Debugging, Code Review, Unit Testing (basic), Agile Methodology, Automation (basic scripting)

EXPERIENCE

Summer Intern – Sasken Technologies Limited

Jun 2025 – Jul 2025

- Developed **15+ REST APIs using Core Java/J2EE**, contributing across SDLC phases for systems with 1,000+ daily users.
 - Improved performance by **40%** through debugging, code reviews, and SQL optimization.
 - Participated in Agile sprints, testing, and documentation to ensure high-quality delivery.
-

PROJECTS

Suite of Tools for Network Security Assurance

- Implemented real-time packet capturing for live traffic analysis.
- Developed network monitoring to detect traffic patterns.
- Integrated AES-based encryption for captured data.

Malware Analysis Tool (Web-Based Security Application)

- Built an interactive scanning tool using HTML, CSS, JavaScript, and DOM.
 - Implemented file upload, script inspection, and real-time alerts.
 - Designed dashboards for threat levels and recommendations.
-

HONORS AND AWARDS

- Secured **1st Place** in an Intercollegiate Debugging Competition among participants from 20+ colleges.
 - Participated in SJBIT Hackathon, demonstrating collaborative problem-solving and rapid prototyping skills.
 - Ranked in **Top 10** among 100+ participants at Impulse Ideathon for innovative technical solutions.
-
